HOW TO FIND THE TUCKED-AWAY PLACES AND "SECRET" MENUS

THE RANCH

Yes, your eyes do deceive you when you see the stark, six-story Extron headquarters. The Ranch Restaurant and Saloon are prominently positioned on the ground floor, but hiding up top is an opulent penthouse with wraparound views and acres of white marble,

now open for private dining for groups of 40 to 264. Bridezillas, your search is over.
